

Your Solar Energy Could Be At Risk

Vote in the Salt River Project Board Election

The Future of Solar Energy is at Stake

sunnova[™]

fusionpower

Paid for by Sunnova Energy Corporation (sunnova.com) and not authorized by any candidate or candidate's committee.

Let's keep solar viable for homeowners **like you.**

The new Salt River Project Board will determine the future of solar power in our area. **Here's what's at stake:**

- Incentives for homeowners who have solar panels
- How much solar costs to install and how long it will take
- Incentives for installing battery systems in your home
- Credits for making homes energy efficient
- Ability to sell excess energy your panels may make back to the utility at a fair rate
- Ease of having an electric car
